

Advice NI has developed an interactive online education resource to provide information on the different ways to save for Christmas.

The online resource is part of OFT's Save Xmas awareness campaign that was launched in 2007 following the collapse of the Farepak hamper company in which an estimated 1,200 people in Northern Ireland were affected.

The Office for Fair Trading is running a long-term campaign to inform consumers about the different options for short-term saving for events like Christmas. The aim is to give consumers the information they need to make the right decision for their personal circumstances.
